

# PROJECT UPDATE

As of October 2025

## New Career Paths Ahead with LCRT

Lowcountry Rapid Transit (LCRT) will bring a new way to travel between North Charleston and Downtown Charleston. The system will connect the region by linking communities, key destinations, and employment centers. But LCRT isn't just about moving people—it's about propelling the Lowcountry forward.

### LCRT IS POSITIONED TO:

Create **new jobs** in various career fields

Catalyze **business and economic success** in the Lowcountry

Provide **vital connections to existing jobs** and employment centers

The construction and operation of LCRT will bring new career opportunities for Charleston area residents.

The system is expected to provide jobs in numerous fields, including but not limited to:

**Construction Management & Oversight**

**Skilled Labor & Trades**

**Compliance & Safety**

**BRT Operations & Management**

**Customer Service & Safety**

**Technology, Data, Finance, & Administration**

## CAREER RESOURCE TOOL NOW AVAILABLE

Throughout final design, our team has engaged with on-corridor neighborhoods, communities, and businesses. Communities and stakeholders have asked for more information on the jobs that LCRT will bring to the Lowcountry. **So, we created a tool to deliver.**

The new **LCRT Career Resource Tool** features:

- ✓ **Key information on new jobs** that may be available during the system's construction and operations
- ✓ **A submission form** to help job seekers connect with our team and receive information on the right job options for them
- ✓ **Frequently Asked Questions** and additional resources in collaboration with SC Works

LCRT offers an opportunity to enhance mobility, accessibility, and prosperity in the Lowcountry, creating new jobs and positive economic impacts. You can explore the tool and its resources by visiting [lowcountryrapidtransit.com/careers/](https://lowcountryrapidtransit.com/careers/).

## Fall Outreach
